St Keyne and Trewidland Parish Council Mobile Web site enquiry

comment : Does anyone from the parish council ever walk around the village and see what a mess it looks. Weeds growing between the kerbstones and pavement. Bushes overgrowing the pavement making it difficult to push a pushchair or wheelchair without the occupant getting caught by brambles and bushes. In some places having to take to the road. Road signs inside the overgrown bushes. Maybe a mention in the newsletter or a few notes through letterboxes to remind people they have a responsibility to keep their plants and hedges inside their boundaries, not encroaching most of the way across the pavement. The pavements need to be usable to all. A little pride in our village would not go amiss.
